For Immediate Release

Red River Hosts Charity Golf Tournament to Benefit Newly Established Technology Scholarship

LEBANON, New Hampshire – July 25, 2008 Red River Computer Company of Lebanon is pleased to announce our second annual charity golf tournament was a great success. It was held at Lake Sunapee Country Club on July 10th. We were able to raise \$25,000.00 to benefit our new Technology Scholarship.

Red River strives to be more than just a local 8:00 – 5:00 business. It is our mission to be an active participant in a community as a corporate citizen. Our role in the community is particularly important to us as we prepare to move our corporate headquarters to the City of Claremont. As a company and as individual citizens, we are excited about playing a role in improving the quality of the community in which we live and work. We understand that a community is only as strong as its members and pro-active participation is the critical component to a strong and vibrant society.

The Red River Technology Scholarship is designed to promote technology knowledge, education and interest by encouraging local student participation in technology-related subjects. The fund may encompass equipment donations, curriculum development, or future scholarships for students with a desire to pursue a technology-focused educational path. It is our ultimate goal to expand this fund into an endowment that will benefit current and future generations of children in the City of Claremont public school system.

The first two recipients of this scholarship are Steven's High School graduates Daniel Decina and Ryan Cameron. They are both outstanding students who are headed to college to study Computer Science. They were each presented with a new Toshiba notebook computer and \$1000.00. We wish them both well as they venture onto college to further their studies in technology!

During attendance at the golf tournament scholarship fundraising event, Stevens High School Principal Paul Couture noted his enthusiasm and appreciation for "a program which supports students at the school with scholarships and awards, supports the school through the company's philosophy of forming an educational partnership with the community's educational system, and supports the community by not only speaking about but also demonstrating real commitment that makes a difference. The first

opportunity to demonstrate that commitment occurred before Red River had actually relocated. Can't get better than that!"

Red River would like to thank all of the participants as well as our biggest corporate sponsors: TD Banknorth, Hull Maynard Hersey Insurance, Arrow ECS, Cleveland Waters Bass, Granite State Harley Davidson, Dell, and Comstor. We are already looking forward to next year's event being an even bigger success.

About Red River Computer Company

Red River is a leading provider of information technology solutions to the federal government, federal integrators and the commercial marketplace. For more than 10 years, we have helped our clients solve their most challenging IT problems with reliable, ethical and dedicated technology expertise, procurement assistance and Red River best practices.
