**Red River Hosts 3rd Annual Charity Golf Tournament
Charity Golf Tournament Benefits Red River Technology Foundation**

Claremont, NH - July 27, 2009 Red River Computer Company, Inc. an integrator of information technology solutions, hosted our 3rd Annual Charity Golf Tournament at Lake Sunapee Country Club on July 9th in benefit of the Red River Technology Foundation.

The foundation is a tax-exempt, non-profit organization that aims to promote technology knowledge, education and experience among area students. This is accomplished through scholarships, donations of IT equipment as well as time and resources to schools, and hosting student workshops with technology manufacturers. The funding for the Foundation comes primarily from the annual charity golf tournament.

This year the Foundation awarded two Steven's High School graduates, Richard E. Kanto II and Colby Santaw, with scholarships of \$2500 each. Richard Kanto will attend the Savannah School of Art & Design to major in Animation. Colby Santaw will attend Clarkson University to major in Computer Engineering. Both students have demonstrated qualities of good citizenship, character, and academic excellence. They are determined young men who will go on to further their academic success.

"Participating in and contributing to the community in which we work is integral to the culture of Red River" said Rick Bolduc, Red River CEO and Foundation President. "The level of appreciation expressed by both Richard and Colby and their desire to pursue IT in college and in their future careers is inspiring. It is why we will work to expand the Foundation into an endowment to benefit the future generations of children in the City of Claremont public school system."

Red River would like to thank all of the participants, as well as, our biggest corporate sponsors: Ingram Micro, Comstor, TD Banknorth, Hersey Insurance, Shaheen & Gordon, McLane Law Firm, Cleveland Waters Bass, MOCA, KBZ, Synnex, Alternative Technologies, McAfee, Copper River IT, Lenovo and Pleasant Valley Business Systems.
