Red River Secures Spot on *Business NH Magazine's* 20 Fastest Growing Companies List

Claremont, NH (October 20, 2009) – Red River, an integrator of information technology solutions with expertise in the public sector and healthcare markets, announced today that it has been recognized as one of *Business NH Magazine's* 20 Fastest Growing Companies. The 20 Fastest Growing Companies list is a subset of the Top 100 Private Companies list.

Each year, *Business NH Magazine* publishes the 20 Fastest Growing Companies list, which is based on three-year average sales growth. This year, Red River ranked eleventh with an average growth rate of 22.85%. The Top 100 Private Companies list ranks thousands of businesses by their annual gross revenue. Red River has ranked in the Top 100 for many years and climbed to the number twelve spot on this year's list.

Red River CEO Rick Bolduc said, "We are honored to be recognized by *Business NH Magazine* again this year, and our consistent growth and success is the result of the great effort and teamwork of our employees. We are pleased to be part of the list of companies contributing to the success of the New Hampshire economy."

Red River's commitment to the New Hampshire economy is demonstrated by its participation in the restoration of the Monadnock Mill complex in Claremont, N.H. The company relocated its headquarters from Lebanon to the Mill Complex in Claremont. The move gives the technology solution provider room for future growth, provides a place to educate young people about technology and IT careers, and helps to revitalize the Claremont community while preserving an important piece of the state's history.
