Red River Announces the Formation of its Healthcare Division Appoints Matt Lane as Director of Healthcare to Lead Strategic Sales Efforts

Claremont, NH (January 7, 2010) – Red River, an integrator of information technology solutions with expertise in the public sector and healthcare markets, announced today the expansion of its healthcare practice with the formation of its Healthcare Division. The company has recently hired Matt Lane as Director of Healthcare to lead the division in its efforts to deliver process-driven IT solutions to meet the challenges facing healthcare providers and administrators nationwide.

Red River has been serving the needs of healthcare organizations for several years and has carefully assembled a team of seasoned, healthcare industry veterans to examine provider and administrator processes and recommend IT solutions that streamline workflow, simplify IT management, lower costs and increase mobility. Mr. Lane comes to Red River from InfoLogix, where he managed large healthcare systems in the eastern U.S. Mr. Lane will implement a nationwide healthcare coverage model and will focus his team on quality of patient care and provider enablement.

Red River CEO Rick Bolduc stated, “With the assembly of this Division and strategic new hires, we have the healthcare knowledge, experience and vision to recommend technology solutions that cater to the people and processes organizations have in place. It is our goal to implement solutions that maximize existing investments and streamline provider workflow and offer return on investments that benefit patients, providers, administrators and IT professionals.”

Red River carefully selects its healthcare information system (HIS) vendors and designs IT solutions and integration/rollout plans to meet hospital operations requirements. Red River has achieved the highest levels of certification with key technology and HIS partners in order to best serve its clients. Leveraging the latest in IP and mobility technologies available, Red River is excited to offer true healthcare solutions to this ever important segment of the American economy.
