- Development Office in Sacramento, CA

Red River

Red River has the capabilities and expertise to meet the specialized IT demands of the U.S. Air Force

We understand. As a technology transformation company with 20 years serving the highest levels of the U.S. federal government, Red River has the leading-edge solutions along with complete integration capabilities and support services to keep any agency focused on mission-critical objectives. Our established technical expertise, strategic partnerships and complete end-to-end support have made us the partner of choice for agencies interested in optimizing business processes and maximizing the value of their investments.

SUPERIOR SOLUTIONS AND EXPERTISE

With our team of highly-certified experts, Red River has the in-depth experience with the DoD and other federal agencies to recognize your technology challenges and offer the best solution. Our team provides complete lifecycle management, from procurement to device management to data analytics.

Red River's engineers have the expertise to design, build and integrate advanced solutions and focus on a number of key areas:

- Approved Products List (APL) Solutions
- STIG and IA compliance
- Risk Management Framework (RFM assistance and Accreditation
- DOD specific systems integration and deployment.

Our team specializes in these capabilities to tackle your advanced technology challenges. For example, our team was responsible in setting up a commercial cloud hosting service for the Department of the Navy.

Utilizing Amazon Web Services (AWS) GovCloud, Red River was able to provide a robust Infrastructures as a Service (IaaS) model so they could access a DoD compliant, prepared and pre-configured environment quickly and with much less risk. Regardless of complexity or scale we stand ready to support the federal government's technology goals.

POWERFUL PURCHASING VEHICLES

Red River holds more than 20 contracting vehicles you can leverage to lower costs and streamline purchasing. We hold multiple Indefinite Delivery Indefinite Quantity (IDIQ) and Government Wide Acquisition Contracts (GWACs) including:

NETCENTS-2: This is a USAF specific contract, so Red River is able provide a variety of highly advanced solutions and services directly to the USAF, including:

- Networking Equipment
- Servers / Storage
- Multimedia
- Software and much more

NASA SEWP V: The USAF is one of the largest users of the SEWP V catalog and Red River has helped many DoD agencies access over 1 million innovative products and best-inclass services through SEWP V.

NITAAC CIO-CS: Red River delivers innovative and secure commodity solutions for agencies across the federal government and initiatives as diverse as cloud computing, cyber security and mobility.

FULL LIFECYCLE APPROACH

Today's technology deployments are rarely plug and play. They typically involve multiple technology components and services from an array of OEMs and providers. Leverage Red River's engineering and consulting services as your trusted advisor to identify solutions for your mission and business challenges. Through our four service areas, we provide complete lifecycle IT management, from procurement to device management to data analytics.

TRUST RED RIVER

Red River provides a wide array of capabilities and cutting-edge technology solutions designed to solve current challenges, optimize available assets and help you make meaningful IT investments that align with your top strategic goals. We offer services across the full spectrum of technology– from selling and integrating technology infrastructure to developing software and custom applications to lifecycle services and support. Our key solution areas include Cloud, Analytics and Mobility. We also provide Professional, Managed and Support Services to maximize your technology investments. And our certified experts have the extensive expertise required to take on your toughest challenges as we work to secure the future of your enterprise infrastructure while lowering costs, reducing complexity and maintaining compliance.

OUR TEAM

Red River employees are highly trained, efficient and ethical professionals taking pride, ownership and responsibility in all engagements with customers and partners. Our team listens and understands your needs, and we match those needs to the best available technology solutions. By working in unison with our manufacturer, service and distribution partners, we deliver quality projects to our customers within time, scope and budget expectations.

OUR PARTNER ECOSYSTEM

Red River has strong relationships with a long list of elite partners, ranging from hardware to services to software. Our partner ecosystem includes global IT leaders that respect Red River's track record of excellence and our core mission of reimagining the possibilities of technology.
