Skype to Teams Migration
Creating a better team with Microsoft Teams

COLLABORATE AND COMMUNICATE ON A SINGLE PLATFORM WITH MICROSOFT TEAMS CALLING SOLUTION

Are you looking to upgrade from Skype for Business on-premises or Skype for Business Online? If so, your organization should consider making the switch to Microsoft Teams. Teams not only provides a centralized hub for collaboration, but also enables business calling on a global scale, combining a Phone System with a Direct Routing and Calling Plan. Discover the difference in communication with Teams.

Microsoft Teams is an integrative hub where end-users have the power to chat, call, host meetings and share documents within a single platform. Teams provides a space where employees can collaborate with one another and utilize Microsoft’s featured applications such as Outlook, Word, PowerPoint, Excel, SharePoint and more.

With top collaboration tools and an updated platform for clear communication, Teams will become your single solution for a modern workspace.

COMMUNICATION SOLUTIONS FOR YOUR TEAM IN OFFICE 365
- Host audio, video, and web conferences with anyone inside or outside your organization with features like scheduling assistance, note taking, desktop sharing and uploading files.
